

4 EASY WAYS TO IMPROVE YOUR VOCABULARY 😎

Learning new vocabulary can be overwhelming.

Where do you start? How can you remember everything?

What's the best way to learn new words? 🌀

WE'RE HERE TO HELP!

Here are **4 strategies**
you can use to expand
your vocabulary 😊

Swipe

1. Read, read, and read some more!

Building vocabulary is easier when you see words in context, like in a book or business article, rather than on a list. You not only see new words but also learn how they're used!

2. Play word games

Games like Scrabble and crossword puzzles are a fun way to grow your vocabulary! For better results, write down new words on a notes app and review them occasionally.

3. Download daily word apps!

Download an app like *Word of the Day*, or *Merriam Webster's app* to learn a new word every day! You can even set the app up to only show you business words 🙄

4. Use new words in conversation

Remember to apply each new word! Try using them in friendly conversations, and when you feel more confident, use them during meetings or even presentations!
